

October 8, 2013

Greetings, friends of the Cowboys!

This year's Salinas High School Mountain Bike Team has experienced a dramatic increase in participation. We are expecting as many as 53 student athletes to ride in the NorCal High School Mountain Bike League. With this incredible increase in student participation comes new challenges.

Several of our students are new to this sport and do not have a mountain bike to ride and race this season. We are reaching out to our community for help in this matter. We are hoping that there might be supporters of Cowboy Racing who would be willing to donate an old mountain bike in good condition in return for a tax write-off.

If you or anyone in your network are able to help us grow our sport by donating a mountain bike, please use the contact information below to get a hold of us. Know that each mountain bike donated to the team will give a high school student the opportunity to explore mountain biking! Riders that utilize these team bikes will be expected to give back to our community through service opportunities. Thank you for your continued support.

Sincerely,
